DEPARTMENT OF CARDIOLOGY

SRI SATHYA SAI INSTITUTE OF HIGHER MEDICAL SCIENCES

BANGALORE

Sri Sathya Sai PrEparatory Course for Exam Going DNB / DM students

SPEED 2017 - CME in Clinical Cardiology

Date: March 11 and 12, 2017

Because Learning Should Never Stop

SPEED turns FOUR……!!!

The department of Cardiology, Sri Sathya Sai Institute of Higher Medical Sciences, Whitefield Bangalore cordially invites you to be a part of **S**athya Sai **Pr**eparatory course for **E**xam –going **D**M/DNB students- more popularly known now as SPEED, which turns four this year. The inaugural session in 2014 and in the following two years was met with astounding success and served only as an encouragement for us to come back with the fourth version this year which we promise will be as interesting and nerve-wracking.

Clinical decisions in real life are not always "black and white". SPEED has always succeeded in the balancing act of combining real-life conundrums with focussed clinical discussion, and thought-provoking hemodynamic data and catheterization essentials with a sole objective to chisel DM and DNB Cardiology students into good clinicians rather than merely help them pass exams. *With our armamentarium of " CROSS FIRE" (the long cases), " POINT-BLANK"(the short cases) and "CATH-WISE"- the hemodynamic rounds and "BENCH to BEDSIDE- the clinical WARD ROUND sessions, we promise to simulate the "pressure-cooker" practical exam atmosphere that all students dread to face.*

As we have had in previous years, this year too we will be having an excellent line-up of clinical master-teachers from across the country who will be giving the best of their experience to the students and help them sharpen and reshape their clinical acumen for better patient care .Our in-house stalwarts with years of experience from Sri Sathya Sai Institutes, Dr. P.K. Dash, Dr.B.Barooah, Dr. V.R. Iyer and Dr. Srikanth Sola acting as Host Faculty will complete the galaxy.

In keeping with Sathya Sai tradition, we believe that education is not just a privilege but a birth-right of mankind, hence no registration fee will be charged from the students. As in previous years, we have again been supported whole-heartedly for this yeoman effort by the KMC who will be issuing suitable credit points for the program.

The heart and soul of any academic conference is its students and Faculty, we sincerely request your attendance and active participation in large numbers to make this program a success for one and all.

SPEED is **your** program- designed for you , planned for you, participated by you and enjoyed by you…. hope to see you on March 11 and 12, 2017.

Dr. P.K. Dash MD DM FACC FSCAI
Head Dept of Cardiology, SSSIHMS Whitefield and Program Director SPEED
