SPEED MMXXIII
CME in CLINICAL CARDIOLOGY

DATE: 2nd & 3rd September, 2023

**Sri Sathya Sai PrEparatory Course for Exam
Going DrNB/DM students**

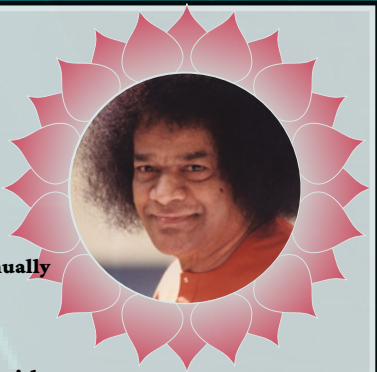

Because Learning Should Never Stop

Dear Sir/Ma'am

SPEED is back!!

Yet again, it is that time of the year which Cardiology residents look forward to , and truly we've been inundated with requests!

It is our pleasure and privilege to invite you for SPEED 2023 - the training program for exam-going DM /DrNB students held annually at Sri Sathya Sai Institute of Higher Medical Sciences, Whitefield, Bengaluru.

It was the keen interest shown by the students across the country with their repeated queries about SPEED and the constant support by our stellar SPEED Faculty, masters of the subject, that has encouraged us to organise yet another edition of SPEED. SPEED MMXXIII will continue to be a culmination of years of "beyond-the-textbook" experience and knowledge of master teachers brought right to the students fingertips, and will have a packed back-to-back case-discussion format covering as many clinical topics as possible.

We expect to have more than 200 students and senior teachers from across the length and breadth of the country joining in along with Institute Faculty and senior faculty from Bangalore city. The academic programs are scheduled to allow us a full day to discuss as many clinical cases as possible to prepare students for the" pressure- cooker" format that most DM/DNB exit exams usually happen to be. Didactic lectures will be kept to minimum to facilitate maximum time for case discussions.OSCE pattern discussions will be an exciting add-on keeping in view the current exam pattern by the NBE.

We have an enthusiastic in-house Faculty team which has always supported us for this academic feast. SPEED has always thrived on student participation ,and your presence adds to the knowledge of others too.We will close online registrations as per our logistics of space and food to avoid wastage. We invite you to participate and make SPEED MMXXIII, a resounding success ,as in all previous years.

Regards

Team SPEED, SSSIHMS, Bengaluru Team SPEED,
