SRI SATHYA SAI INSTITUTE OF HIGHER MEDICAL SCIENCES, WHITEFIELD

A unit of the Medical Care Division, Sri Sathya Sai Central Trust, Prasanthi Nilayam, Puttaparthi, SSSIHMS, Whitefield was **Established by Bhagawan Sri Sathya Sai Baba on 19th January 2001**. The Institute embodies His divine mission of providing free, high-quality, and holistic healthcare to all, without distinction & stands as a beacon of compassionate healthcare & excellence in medical education.

As the Institution joyously celebrates its 25th Anniversary in this sacred Centenary Year of Bhagawan's Birth, we honor a legacy of selfless service & transformative education. This milestone stands as a tribute to Bhagawan's eternal message

**"Love All, Serve All
Help Ever, Hurt Never"**

SSSIHMS COLLEGE OF NURSING

was established by Bhagawan Sri Sathya Sai Baba on 1st September 2008 as a model institution for imparting ideal nursing education of highest standards to deserving and eligible candidates, **completely free of cost**.

The college's **curriculum integrates an Education in Human Values program** that promotes value-based learning & holistic development. It is committed to nurturing compassionate, ethical, & skilled healthcare professionals who prioritize patient care over profit and strive for excellence in clinical practice and community service.

"End of Education is Character"

CONFERENCE THEME

Nursing is central to patient safety & recovery. AI is transforming the way nurses deliver care. From predicting complications and enabling personalized care to reducing documentation burden through smart tools, AI enhances efficiency & patient outcomes. Nurses ensure ethical use of AI by balancing technology with compassion, making it a powerful ally in modern healthcare.

OBJECTIVE

To empower nursing professionals with the knowledge & skills required for effective AI integration. The conference aims to foster dialogue, innovation & collaboration in shaping the future of compassionate, technology-driven healthcare.

LEARNING OBJECTIVES

- Build foundational knowledge of AI in nursing, including advanced clinical applications and individualized, precision-based care
- Explore strategies for integrating AI into nursing education to prepare future-ready professionals
- Promote responsible adoption of AI through awareness of ethical, legal, and professional dimensions, supported by expert-led sessions and practical demonstrations

WHO CAN ATTEND?

- Nursing and AHS - Students and Faculty
- Nursing and AHS Healthcare Professionals
