FOUNDER

Bhagawan Sri Sathya Sai Baba

"When we have such highly capable and a dedicated doctor, Swami has willed that there should be a sufficient number of trained nursing personnel and therefore training facilities for nursing personnel will be established. It is easy for doctors to perform operations. The real difficulty is in taking care of the patients after the operations. It is easy to slice vegetables. But, to prepare a tasty dish out of that is very difficult. This task of "cooking" is done by the nurses. If there is no good nursing, even the operation may be a failure.

Therefore in order to train a good group of nursing personnel, training facilities are being provided. All those who are pure-hearted and filled with a spirit of service, may approach for undergoing training to serve in the hospital. They need not incur any expense. The entire training is free. Elsewhere, if people want to undergo such training, they have to pay all kinds of fees. Here nothing will be charged. Everything will be provided free. Only, we want persons with pure hearts to join the course."

{Divine Discourse delivered on occasion of Guru poornima in the year 1992, Venue: Poornachandra Hall}

Dr.D.C.Sundaresh
DIRECTOR-SSSIHMS, Whitefield

Dr.A.R.Manjjuri
Principal-SSSIHMS College of Nursing

Nursing is both an art and a science – an integration of skill compassion, commitment, and character. As the healthcare landscape evolves, the role of nurses becomes increasingly vital Our College of Nursing strives to develop competent, ethical, service-oriented nursing graduates who embody the ideals of care, professionalism, and integrity.

- All selected candidates will undergo a comprehensive medical examination at the time of admission at SSSIHMS, Whitefield, and their health records will be maintained throughout the training period.

VII. HOSTEL

The hostel for students is Located within campus;

The philosophy of hostel life is based on the approach of community living: each one lives for the other and all live together for a common higher cause. Students from different states of India, and varied economic and cultural backgrounds live together in a room. The aesthetically pleasing hostel buildings also create a noble ambience for students to live in. As a result, the hostel is a miniature model of the world outside with people of different habits, temperaments, lifestyles, language and outlook staying together and working. This develops the qualities of understanding, adjustment, sharing and caring amongst the students. It nurtures virtues like adaptability, tolerance and sacrifice; developing students into noble and responsible citizens. The ambience is suffused with both discipline and loving care. Hostel teachers reside with the students in the hostel. The relationship between the students and teachers is very cordial and warm, and the teachers' pay personal attention to the problems of each and every student. The teachers are chosen with extreme care to play an important role in this process. Many of them are alumni of the Institute, dedicated and well versed in integral education. They serve as facilitators and are available at all times for mentoring the students on personal and academic matters.

Personal cleanliness, punctuality and regularity, general behaviour, personal etiquette and room cleanliness are the major components of the discipline that is followed at our hostel.

This is a crucial component of this process. Each student's day starts at 5:00 a.m., with prayer, exercise and sports. Classes commence at 8.30 a.m. and end at around 4:30 p.m. Students then move to the hostel for personal activities followed by evening prayers. The Post dinner, students continue to concentrate on their studies before lights out at around 10 p.m.

Strict adherence to rules and maintenance of discipline are expected from all students, as these are essential for ensuring a harmonious and comfortable community life. Violations may lead to expulsion

Dress Code

- **Allowed:** Saree, Salwar Kameez, Churidar.
- **Not Allowed:** Skirts, T-shirts, Leggings, Short dresses
- Girls are expected to maintain a tidy and well-groomed appearance at all times.

Self-Reliance Programme

Designed to build teamwork, responsibility, service attitude, and character.

- The Self-Reliance Programme provides students with opportunities to enhance and expand their skills & knowledge.
- It also facilitates the development of essential soft skills such as compassion, honesty, and diligence.
- The programme promotes teamwork and fosters a spirit of care and cooperation among students.
- Participation helps in strengthening a sense of belonging and discipline within the campus community.
- It encourages students to take responsibility and ownership of the activities they engage in during their campus life.
- The qualities developed through this programme contribute to the holistic growth of students, enabling them to become well-rounded individuals.
