SPEED-2026

CME IN CLINICAL CARDIOLOGY

Date: 17th & 18th October, 2026

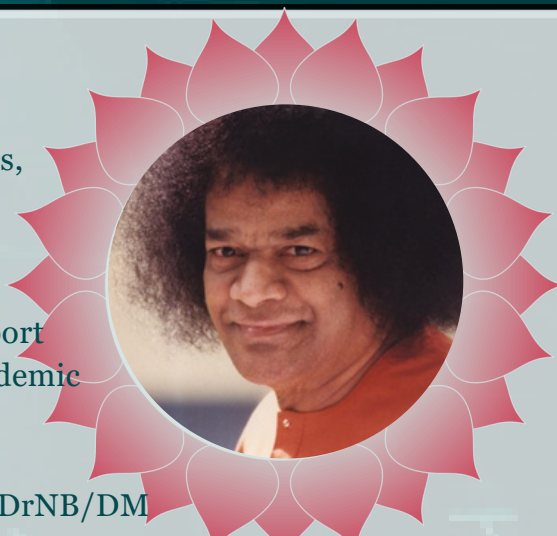

**Sri Sathya Sai Preparatory Course for Exam-going
DrNB/DM Students**

Because Learning Should Never Stop

Dear Doctor,

We are pleased to invite you to participate in SPEED 2026 – Sathya Sai Preparatory Course for Exam-going DM/DrNB Students, the clinical teaching program being conducted at the Sri Sathya Sai Institute of Higher Medical Sciences, Bengaluru, on 17th & 18th October 2026.

Thanks to your continued participation, encouragement, and support over the years, SPEED has grown into a much-awaited annual academic program.

SPEED aims to simulate the “pressure-cooker” atmosphere of the DrNB/DM examinations in the most authentic manner possible. Our success lies in our “PURE CLINICAL” format—clinical case presentations, case-history analysis, imaging and haemodynamic data interpretation, and interesting echocardiographic case studies.

We keep didactic lectures to a minimum and allow maximum opportunity for interactive discussion of clinical cases with experienced master teachers, because experience is priceless. Feedback from previous years has consistently highlighted the value of this one-to-one, exam-oriented approach, which has been an important contributor to the success of our students.

Postgraduate students pursuing cardiac surgery and cardiac anaesthesia, as well as paediatric cardiology fellows, have also benefited significantly from the program. The Karnataka Medical Council (KMC) has always been supportive of SPEED by extending due credit points to the program.

As we have always maintained, it’s a battlefield out there in the examination—and in life as well.

The program will feature our much-loved sessions:

- CROSS FIRE – Long Case
- POINT BLANK – Short Case
- FIRE POWER – BENCH to BEDSIDE: clinically oriented discussions
- MASTER CLASS – Face-to-face interaction and discussion with examiners

In keeping with the principles of Bhagawan Baba, there is no registration fee for the program.

Accommodation and travel will have to be arranged by the delegates.

Registration Link: <https://whitefield.sssihms.org/conference-registration/?conf=speed-2026>

Last date for registration: 1 October 2026

We look forward to your continued participation, encouragement, and support in making SPEED 2026 another meaningful and enriching academic experience for our students.

With warm regards,

SPEED 2026 Organising Team
